

NEW EU SECURITY RULES AT AIRPORTS

Important information for our passengers transferring in Budapest or at other EU airports

To protect you against the new threat of liquid explosives, the European Union (EU) has adopted new security rules that restrict the amount of liquids that you can take through security checkpoints. They apply to all passengers departing from airports in the EU whatever their destination.

This means that, at security checkpoints, you and your hand luggage must be checked for liquids in addition to other prohibited articles. However, the new rules do not limit the liquids that you can buy at shops located beyond the point where you show your boarding pass or on board an aircraft operated by an EU airline.

The new rules apply from Monday, 6 November 2006 at all airports in the EU and in Norway, Iceland and Switzerland until further notice.

WHAT IS NEW?

While packing

You are only allowed to take small quantities of liquids in your hand luggage. These liquids must be in individual containers with a maximum capacity of 100 millilitres each. You must pack these containers in one transparent, re-sealable plastic bag of not more than one litre capacity per passenger (see photo below).

At the airport

To help screeners detect liquids, you must:

- present all liquids carried to the screeners at security checkpoints for examination;
- take off your jacket and/or coat. They will be screened separately whilst you are screened;
- remove laptop computers and other large electrical devices from your hand luggage. They will be screened separately whilst you are screened.

Passengers transferring in Budapest or at other EU airport are permitted to take liquids bought in a non EU airport tax free shop on board if they meet the requirements of EU rules: They can be board only in sealed bag with proof of purchase, otherwise the contents may be confiscated at the checkpoint. Please take this rule into consideration by shopping!

Liquids include:

- water and other drinks, soups, syrups
- perfumes
- gels, including hair and shower gels
- pastes, including toothpaste
- mascara
- creams, lotions and oils
- sprays
- contents of pressurised containers, including shaving foam, other foams and deodorants
- liquid-solid mixtures
- any other item of similar consistency

WHAT DOES NOT CHANGE?

You can still:

- pack liquids in bags that you check in – the new rules only affect hand luggage;
- carry in your hand luggage medicines and dietary requirements, including baby foods, for use during the trip. You may be asked for proof that they are needed;
- buy liquids such as drinks and perfumes either in an EU airport shop when located beyond the point where you show your boarding pass or on board an aircraft operated by an EU airline.
If they are sold in a special sealed bag, do not open it before you are screened – otherwise the contents may be confiscated at the checkpoint. (If you transfer at an EU airport, do not open the bag before screening at your airport of transfer, or at the last one if you transfer more than once).

All these liquids are additional to the quantities in the re-sealable plastic bag mentioned above.

If you have any doubts, please ask your airline or travel agent in advance of travel. Please be courteous and cooperate with airport security and airline staff.
